## Springfield, Missouri

The work of the Bible Institute of Missouri continues in full swing! We are quickly approaching the end of the quarter, and the students are working hard to complete their final assignments and prepare for exams. It's been a great encouragement to see the effort these men have put in.

Regarding the work going on at BIM, Isaac Humphrey, a second-year student, said this:

Isaac Humphrey

"Because of being here at the Bible Institute, I am able to be out almost every Sunday, preaching the word to different audiences. Our calendar is starting to fill up even for the new year. It is a great privilege to be able to be used by God to positively impact His people in the whole Ozarks region."

David Pierson, a first-year student, had this to say:

David Pierson

"It's a great opportunity to learn more about the word and how to preach. I really appreciate the supporters because there's no way anybody could do anything like this without having supporters that are willing to help."

It's certainly encouraging to see the mission of the great commission so strongly in the hearts of our students, even here in the U.S. We're very thankful for having men like this in training. Their passion also presents a challenge for us all to work harder every day to serve the Lord. Furthermore, we know that none of this work would be possible without the support of so many congregations and individuals. We all thank you sincerely and praise God for this opportunity. May we all continue to build the Lord's kingdom together!"

## Six Preacher Training Schools

Committing God's Word to Faithful Men

**USA • Zambia • Uganda  
 Ghana • Kenya**

## GSOBS News

by Jerry Sullins

The work of the Global Schools of Biblical Studies continues to produce trained gospel preachers here in the U.S. as well as in Africa. Just recently, our schools in Ndola, Zambia and Nairobi, Kenya graduated another twenty-five trained gospel preachers to lead the lost to Christ. We want to thank all our supporters for the faithfulness shown in the spread of the gospel throughout the world.

First Graduating Class of the Copperbelt School of Biblical Studies

Our work at GSOBS is in the process of expanding. To meet the needs of the work, we've added a staff member whose role will focus on outreach and awareness. Casey Rice has joined our team to help inform churches and individuals about the ever-growing work of training gospel preachers across the world. Since joining, he has begun visiting congregations to make presentations of our work and is now booked for several months. Casey is striving to raise his support through special onetime gifts as well as monthly contributions. If you are willing as a congregation to allow him to come and present our program to you, he would love to have that opportunity. Please let us know!

Another pressing need is to secure support for two of our full-time teachers here at the Bible Institute of Missouri. As you all know, support fluctuates from time to time, so needs arise and change. Trey Sullins is in need of \$500 more per month. Presently, these needs have been funded through onetime special contributions. We need to raise these funds so that our regularly budgeted needs can be taken care of on a monthly or annual basis. Both of these men are making a sacrifice to be a part of this good work and are doing a great job. Please help with this deficit so we can solidify their support.

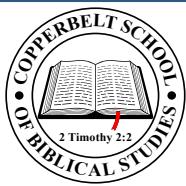

Finally, remember that there are several ways to give and to support our work. Obviously, checks and cash are always appreciated; however, we also have the ability to give online with onetime or monthly recurring contributions. Please also let us know if your funds are designated for any specific purpose; otherwise, they will be applied to the most pressing need within the work.

Words cannot express how much we appreciate those of you who have continued to support and help us regularly over the past many years, with prayers and financial support. Together we will continue to reach the lost souls of this world with the gospel of Jesus Christ. May God bless us all in His continued service.

## November 2025 Trip

God blessed us with another safe journey to Africa to share in two graduation ceremonies at our schools in Zambia and Kenya. We were blessed to meet with brother Scott Richards who through his mission work and funds, is a coworker and primary funder of our work, to encourage our graduating brothers and to visit a few of our other schools in Africa.

Our journey started in Ndola, Zambia, where we saw ten men graduate from our first class at this school.

Travelers of the November Trip

It was so exciting to be part of this graduation and to see that all the hard work has finally paid off with this first class. How wonderful it is to know that these new soldiers are ready to return to their labors and stand strong in the word of God together. Lord willing, we will start with eighteen new students at this school next February. May God continue to bless this school with many more years in His service.

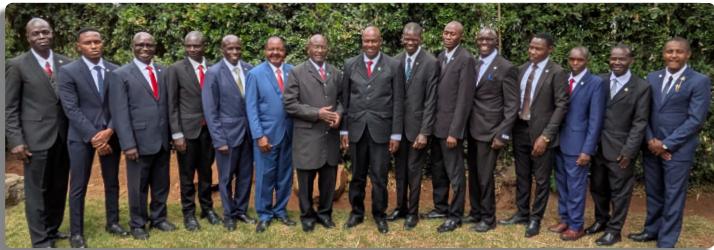

Graduates of the Ndola School

Next, we traveled to Livingstone, Zambia. Although our school in Livingstone was already on break, we spent some time working with the teachers on the new print workshop.

After completing our work in Zambia, it was time to head to Kenya. We started in Nairobi, where we

attended another graduation. It was such a happy occasion for the men and their families. That brings our number of graduates to thirty-two in Nairobi alone. We had a big turnout for the graduation and

Graduates of the Nairobi School

also enjoyed an African meal together. We also had at least seven of our previous graduates come for this graduation. It was good to see them and hear of the good work they are doing in the Rift Valley. These same men also honored us by giving us a Maasai wrap to put on. We all had a wonderful time together as fellow laborers of God. How sweet is the fellowship of God's faithful!

Receiving Maasai Wraps

After graduation, we went to Kisumu, Kenya to see our school there. In Kisumu, we currently have twelve students in the first intake at this new school. We are also excited because we have five men from Uganda training at this school. This was an excellent opportunity for us to be with our brethren there and encourage them in their good work.

This trip allowed us not only to be part of two graduations, but it also allowed my father, Jerry Sullins, to see four of the schools in Africa on one trip, two of which he had not yet seen up and running. God certainly prospered our trip and gave us a safe return home. We praise God for His goodness and pray that He will continue to bless all these good works to His glory and praise.

## Est. 2017 Kumasi, Ghana

Our school in Ghana is currently on its holiday break. The school's ten students have gone home for a month and will be returning in early January. Things continue to go well in Ghana. Brother Scott visited Ghana in early November for a few days.

The local congregation at the school there continues to grow. Through evangelism and the radio programs, there are many people responding to the gospel. We are also very appreciative of brother Ron Gilbert, who has been funding the radio program there. This work is proving to be fruitful throughout Africa.

We have a few projects in Ghana that we would like to complete. One is to enlarge the school's office, which will provide more room for the teachers to work and will create storage space for supplies and food. We will probably need about \$2,000 to accomplish this task. May God continue to bless His good work in Ghana.

Written by Ray Sullins

## Est. 1988 Livingstone, Zambia

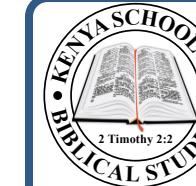

We were blessed to visit Livingstone in November, though the was on break. We saw the new print shop and made plans, ordering two additional printers to complement our current machine. We also ordered and installed a heavy-duty paper cutter, another binder, all the office furniture, tables, and shelving.

New Print Workshop Building

We're excited about this print shop since it will be able to deliver materials to our African schools and other preacher schools we work with. We'll print thousands of tracts, songsbooks, and religious materials for evangelism and study. This is capability we've been lacking for a long time. Lord willing, this will help us reach lost souls in Africa even more! Praise God for making this possible.

Written by Ray Sullins

## Est. 2025 Kisumu, Kenya

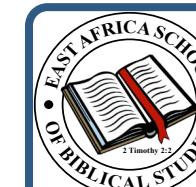

What a blessing it was to be in Kisumu in November. Kisumu is a beautiful city in Kenya, which is on Lake Victoria. It is a smaller city, yet it has all the modern conveniences of a larger city.

Kisumu Students

We currently have twelve men training from two African countries, seven from Kenya and five from Uganda. We also have three great teachers who are teaching these brothers. Their names are Kenneth Wabwire, Dan Okanya, and Daniel Atolewa. We have also started a new congregation in Kisumu for the school and local evangelism.

Written by Ray Sullins

## Est. 2003 Busia, Uganda

We have almost one hundred graduates throughout Uganda, and the Lord continues to bless our ministry there. Evangelism thrives through radio programs, personal work, and campaigns, with baptisms from our graduates occurring nearly every week. Many Ugandans continue the good work of God, including some Ugandans we're currently training in Kisumu, Kenya.

Baptism of a Young Woman

Sadly, our Ugandan school remains closed due to legal registration issues. We're working diligently toward resolution, and prospects look favorable, though progress is slow in Africa and requires patience. With our next court appearance in January, please pray for final resolution so we can reopen the school. Meanwhile, we'll continue training interested Ugandans at our two Kenyan schools.
