Est. 2003

Springfield, Missouri

The first quarter is quickly coming to a close, and all five of our students are doing well. These men are dedicated to growing in God's word as they train to become preachers, teachers, and missionaries.

We are excited to announce that we will be taking all of our students on the Flood Experience trip, scheduled for November 15–21. This is conducted by Jeff Miller from Apologetics Press. It will include visits to the Petrified Forest, Painted Desert, Meteor Crater, Sunset Crater, Grand Canyon, Lowell Observatory, Walnut Canyon, and Lava River Cave. It will also include twelve instructional sessions taught by Jeff Miller, as well as daily devotionals and educational videos. The daily schedule runs for over 12 hours each day, so it is going to be a jam-packed five days. This week will be considered part of our second-quarter curriculum. It will directly connect to our apologetics course in the fourth quarter, giving our students a strong foundation before they study the material in the classroom.

We have never taken our students to anything like this before, but we believe it will be well worth the time and expense for such a deep, firsthand learning experience. Seeing the geological evidence for the biblical flood in person will strengthen their ability to teach and defend the faith and the Bible as the truth Revealed by God Himself. As future preachers and missionaries, they will inevitably face questions about creation, and this trip will equip them with answers rooted in both Scripture and science. The cost is \$900/person, inclusive of housing, meals, and admission during the five days. Additionally, we will have travel expenses for the two days it will take to get to Flagstaff, Arizona and then return. If you would like to help with these expenses to provide this wonderful educational opportunity for our students, then we would encourage you to do so.

Seven Preacher Training Schools

Committing God's Word to Faithful Men

USA • Zambia • Uganda Ghana • Kenya

GSOBS News

by Ray Sullins

Current Students of the BIM

graduated over fifty men, most of whom are still filling pulpits across the United States. Presently, the demand for faithful gospel preachers to fill the pulpits of our nation is increasing. Right now, we have five students who are receiving training. As it normally goes, each of these men will already be in talks with congregations to work with before they have graduated. This shows yet again the great need for more to be trained.

In connection with this, one of our new students is Brandon Billington. He is a married man with four children, and he comes to us from the Fordland Church of Christ, which is close to Springfield, Missouri. He is faithful to the Lord and desires to do God's will. This good brother is still in need of most of his support to continue training at the school. Therefore, we request your urgent consideration of this need. Please help us fund this fine young man to continue his training here at the school.

Another urgent need at this time is an opportunity for our students to join an education program that will enhance their training. One such 5-day program in our brotherhood has been offered to schools like ours by brother Jeff Miller, who works with Apologetics Press. It involves a trip to the Grand Canyon for a study called the Flood Experience. The total cost for all the students and one faculty member is \$5,400. Please consider helping us cover this expense.

As all of you realize, monthly donations and onetime contributions are the lifeblood of our work here for the Lord. So, please help these future preachers in their overall training so that we might equip them as best as possible for the work of the Lord. We thank you in advance for considering this request.

Est. 2017 Kumasi, Ghana

In 2017, we were blessed to begin a full-time preaching school in Aboaso, Ghana, dedicated to training gospel preachers for the work throughout West Africa. At that time, we had three graduates of our schools in southern Africa who had already returned to Ghana and had been laboring for the Lord faithfully for many years. These brothers proved themselves to be faithful and evangelistic in the Lord's work. Specifically, Brother Williams Benjamin Anarfi was responsible for challenging others in the work and planting over 30 different churches throughout the Ashanti region. Today, it is because of great men like him and Brother James Acheampong that we can have a full-time school in Ghana, and the Lord continues to bless our work there richly.

Current Class of the School

I am excited to say that we are about to graduate our fifth class of students in Ghana in November of this year. My father, Jerry Sullins, and I will be going there on November 3rd to attend the graduation and spend time visiting with the churches and students. After this graduation, we will have over fifty graduates from Ghana, most of whom are out doing the work of the Lord and preaching to the faithful and the lost of West Africa. What a blessing it has been to continue laboring in this country with its good people, whose hunger for God's word and eagerness to obey it never cease to encourage us. I know that God will continue to bless our way and plans there in His kingdom.

Another great blessing of starting the school in Ghana is that we have now been able to plant a new faithful congregation in Aboaso. In only a few years, it has grown to over 200 members, drawn from Aboaso and the surrounding communities. The

Aboaso Church of Christ

congregation was meeting at the school compound, but because of the size of the congregation, we are in the process of helping them build a modest building where they can meet regularly to worship God. As of now, they are still worshipping at the school and have actually outgrown the space we have provided for them, making a permanent meeting place an urgent and practical need. So far, we have purchased and secured the land. Now we are just lacking the facility, which is projected to cost around \$25,000. If any of you would be willing to consider helping with this project so that this congregation will have its own place, please let us know.

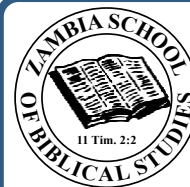

Materials for the Church Building

We greatly appreciate your consideration of this need and any help you can give. Once we have the funds secured, the structure itself can be put up within a matter of months, with local brethren eager to contribute their own time and labor. Thanks in advance for your help with this great need.

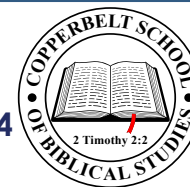

I look forward to giving you all an update on the graduation in our next newsletter. May God continue to bless His good work in Ghana.

Zambia

Est. 1988 | Est. 2024
Livingstone | Ndola

This year has been a busy one in Zambia. The students in Livingstone continue to do well, and they are now getting toward the end of their studies with graduation coming in November. My father, Jerry Sullins, and I look forward to being in Zambia for the graduation in November. Please keep us in your prayers as we travel and share in this time of celebration.

Zambia Schools' Staff

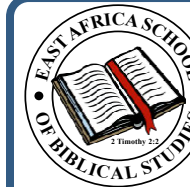

One of the exciting parts of the work is that both schools will often join in for lectureships and/or gospel meetings. The picture above includes some of our teachers from both schools as they came together for a lectureship. How wonderful it is to see the great love for souls and the great work these men are doing throughout Zambia.

Newly Printed Books and Tracts to Send Out

The print workshop is also continuing to do great work in Zambia. Our machines are running every day to produce materials to evangelize in Zambia and throughout Africa. These materials reach people who may never hear a preacher in person, carrying the gospel into homes and distant villages. Since starting the workshop about a year ago, we have printed 96,695 books and tracts. Thanks for your prayers and help with the good work in Zambia. I know God will continue to prosper the labors for His kingdom throughout Zambia.

Est. 2003 Busia, Uganda

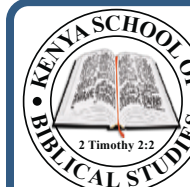

The work of the Lord continues in Uganda while we strive to work toward the reopening of our school. The great news is that evangelism and the Lord's work have never ceased but have continued steadfastly through over 90 graduates throughout the country. A while ago, I received this picture of a baptism at night under a flashlight. It reminds us of the power of God's word and the importance of one going the "same hour of the night" to obey the gospel (Acts 16:33). Praise be to God for our new brother.

Baptism of a man at Night

Continue to pray for the good work in Uganda, that God will provide a way soon for us to be able to reopen the school.

Kenya

Est. 2022 | Est. 2025
Nairobi | Kisumu

The Lord's work continues to go well in Kenya. In Nairobi, we still have seventeen men training to become gospel preachers. Our teachers are doing a great work there. The local congregation and the school there are also staying busy with evangelism, and we continue to see the fruits of their labors in those who are obeying the gospel. What a beautiful example they are of the Lord's work in Africa.

Baptism of a Man

Our school in Kisumu is also doing well. Our twelve students there are continuing their good work, and Lord willing, they will be graduating next February. We pray that the Lord will continue to bless this good work in Kenya to His glory and praise.
